Course: Web Application Development
Lab Instructor: MSc. Tran Khai Minh
Email: tkminh@hcmiu.edu.vn

Lab 2: HTML & CSS
Date: March 1, 2025
Tutorial:
- HTML https://www.youtube.com/watch?v=HD13eq_Pmp
- CSS (Basic) Learn CSS in 20 Minutes (youtube.com)
- CSS (Full) Learn CSS in 1 hour 🎨 (youtube.com)

Duration: 3 hours

Part 1: Run Example:
Run and try to understand the examples that you are given on BB. It will help you to do the practice in part 2.

Part 2: In class practice (check BB after instruction)

Part 3 GO ON TO DEVELOP YOUR PERSONAL WEBSITE WITH THE FOLLOWING REQUIREMENTS:

ASSIGNMENT 1: From 5 to 10 pages (5 to 10 HTML files) (example: Home, About, Friends, Pictures…)
- Using Frame, Images, Link, and all components of a form and as much as element you can
- Using CSS to decorate your pages
- Build your site from scratch, don't use any library right now. You will apply framework later
- All your pages need to link together.

How to submit your work.
- Capture all your pages and place them in the pdf file.
- Zip all the project (HTML, CSS, PDF files, and SQL file) with the format (Ex: WEB-Lab01-ITITIU23001-Nguyễn Văn A.pdf) and submit to the Blackboard.
